ENVIRONMENTAL

NO. 64722-E

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office DEC 21 1998
Returned to applicant for correction JAN 14 1999
Corrected application filed FEB 22 1999
Map filed MAR 11 1999 under 64717-E

The applicant **Vista Canyon Group, a Limited Liability Company**, hereby makes application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated.

1. The source of the proposed appropriation is **shallow groundwater**
2. The amount of water applied for is **0.323** second-feet
 - (a) If stored in reservoir give number of acre-feet
3. The water to be used for **environmental cleanup**
4. If use is for:
 - (a) Irrigation, state number of acres to be irrigated
 - (b) Stockwater, state number and kinds of animals to be watered
 - (c) Other use (describe fully under No. 12. "Remarks")
 - (d) Power:
 - (1) Horsepower developed
 - (2) Point of return of water to stream
5. The water is to be diverted from its source at the following point **SW $\frac{1}{4}$ of NW $\frac{1}{4}$, Section 10, Township 19 North, Range 20 East, M.D.B.M. (See Attached Amendment)**
6. Place of Use **within SW $\frac{1}{4}$ of NW $\frac{1}{4}$, Section 10, Township 19 North, Range 20 East, M.D.B.M.**
7. Use will begin about **January 1** and end about **December 31** of each year.
8. Description of proposed works **3 drilled groundwater extraction wells and submersible pumps (A4, P6, P10)**
9. Estimated cost of works **Project: \$500,000**
10. Estimated time required to construct works **Project: Well Installation: 6 months Remainder of works: 9 months**
11. Estimated time required to complete the application of water to beneficial use **Ten years - Project length based on monitoring data**

12. Remarks: Petroleum hydrocarbon and chlorinated solvent impacted shallow groundwater will be pumped from a total of 36 shallow wells to two water treatment plants utilizing a granular activated carbon fluidized bed reactor, and a denitrifying treatment system. Treated water will be discharged to the Truckee River under an NPDES permit or reinjected under a UIC permit. Estimated volume to be treated for the proejct: 475Mgal/Yr. This application is being filed to increase the pumping rate from the wells currently on record under permit No. 61114E.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This environmental permit is issued subject to existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance for pollution control as mandated by orders issued by the Nevada Division of Environmental Protection and subsequent correspondence with said agency. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and records of this measurement shall be submitted on an annual basis. It is also understood that this right must allow for a reasonable lowering of the static water level of permittee's well due to other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. The State retains the right to regulate the use of water granted herein at any and all times.

This environmenatl permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this environmental permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This environmental permit is issued pursuant to the provisions of NRS 533.4375. Well drillers reports for any well(s) drilled under this permit shall be filed within 30 days from completion of the well.

Within 30 days after the completion of the project, the permittee shall notify the State Engineer of such completion and all wells shall be plugged and abandoned in accordance with Chapter 534 of the Nevada Administrative Code.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.323 cubic feet per second.

Work must be prosecuted with reasonable diligence and be completed on or before:

Proof of completion of work shall be filed before:

Application of water to beneficial use shall be filed on or before:

Proof of the application of water to beneficial use shall be filed on or before:

Map in support of proof of beneficial use shall be filed on or before:

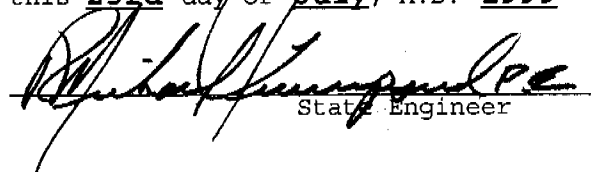

*
